

Asia region

Asia contains many ethnic groups, religions, political systems and possibly the widest gap between rich and poor anywhere in the world. Some of its economies are in the running for world leadership, yet many are starving.

World recession has also had a strong effect in Asia. On the other hand the Church is growing fast and has many lessons to teach us about faith, witness and suffering.

PRAY FOR:

SUNDAY

4

More honest, compassionate and competent governments in Asia. Political stability continues to be a real issue on the continent with corruption, protests and uncertainty common.

MONDAY

5

Courage, witness and protection for Christians and churches in Asia. With Christians in the minority their position as a group can become even more difficult during unsettled times.

TUESDAY

6

God's help and presence with all who are suffering today. Persecution remains part of life for many Asian Christians, if not by governments and security forces, by local leaders and within the family.

WEDNESDAY

7

All those working with local Christians in disaster prevention and relief efforts. Natural disasters continue to hit Asia regularly, as plains flood, mountains slide and earthquakes strike.

THURSDAY

8

Thank God that the Church in Asia is growing fast. Pray for good teaching and discipleship for all new believers.

FRIDAY

9

More and deeper training for emerging church leaders in Asia.

SATURDAY

10

Thank God and pray for the many followers of Isa (Jesus) from Muslim backgrounds remaining as witnesses in their own families and communities.

From 22 million in 1900, the number of Christians in Asia has grown today to around 350 million
